

CHERT IoT — Systems Status

Live status of every open-source engine & service on production
Environment: production (chertiot.com) · Generated 2026-09-16 02:53 UTC · Build v1.6.0

21 Operational 1 Degraded 1 N/A (dev only)

Open incident — telemetry persistence: ThingsBoard's container is healthy and its UI/API respond, but device telemetry (MQTTS + HTTP) is currently **not being stored** — messages fail silently at the rule-engine "Save Timeseries" node across all tenants. Root cause found & fixed (non-idempotent tenant-profile re-save churned the rule engine); the already-wedged state needs remediation (see MAJOR-UAT-INCIDENT.md). Live dashboards/alerts show no new data until resolved. All other engines are operational.

SYSTEM	VERSION	URL / ENDPOINT	STATUS	NOTES
ThingsBoard CE Core · IoT platform	4.3.1.4	app.chertiot.com · MQTTS :883	Degraded Up 45 minutes (healthy)	Container healthy, but device telemetry is NOT persisting (rule-engine incident — see note).
Keycloak Core · Identity	26.7.2	auth.chertiot.com	Operational Up 45 minutes (healthy)	SSO / OIDC for all apps.
Portal (FastAPI) Core · Custom app	app	chertiot.com	Operational Up 45 minutes (healthy)	Signup, devices, flows, lora, alerts, teach.
Docs (mkdocs→nginx) Core · Docs	app	chertiot.com/docs/ (./ar/)	Operational Up 45 minutes (healthy)	EN + Arabic.
Caddy + layer4 Core · Edge / TLS	2.11.4	(edge for every host)	Operational Up 45 minutes (healthy)	TLS, routing, MQTTS termination.
PostgreSQL Core · Database	16.15	internal postgres:5432	Operational Up 45 minutes (healthy)	DBs: thingsboard, keycloak, portal, chirpstack.
Prometheus Core · Observability	v3.14.0	internal :9090	Operational Up 45 minutes (healthy)	Metrics + alert rules.
Alertmanager Core · Observability	v0.34.0	internal :9093	Operational Up 45 minutes (healthy)	Alert email via SMTP2GO.
Grafana Core · Observability	13.1.4	grafana.chertiot.com	Operational Up 45 minutes (healthy)	Admin-only dashboards.
Uptime Kuma Core · Status	1.23.17	status.chertiot.com/status/chert-iot	Operational Up 45 minutes (healthy)	Public status page.
node-exporter Core · Exporter	v1.12.1	internal :9100	Operational Up 45 minutes	Host metrics.
cAdvisor Core · Exporter	v0.55.1	internal :8080	Operational Up 45 minutes (healthy)	Container metrics.
postgres-exporter Core · Exporter	v0.20.1	internal :9187	Operational Up 45 minutes	DB metrics.
Node-RED Flows · Low-code	5.0.6	flows.chertiot.com/u//	Operational	Per-student editor (owner-gated).
docker-socket-proxy Flows/Lab · Ops	v0.5.0	internal :2375	Operational Up 2 weeks	Least-priv Docker API for spawning.
JupyterHub Lab · Notebooks	5.5.1	lab.chertiot.com	Operational Up 2 weeks (healthy)	Per-student Python notebooks.
ChirpStack LoRa · Network server	4.19.1	internal (portal /lora)	Operational Up 12 days	LoRaWAN device mgmt (gRPC).
ChirpStack Gateway Bridge LoRa · Gateway	4.1.2	chertiot.com:1700/udp (EU868)	Operational Up 12 days	Gateway packet-forwarder ingress.
Eclipse Mosquitto LoRa · MQTT broker	2.0.22	internal :1883	Operational Up 12 days	ChirpStack ↔ bridge ↔ lora-bridge.

SYSTEM	VERSION	URL / ENDPOINT	STATUS	NOTES
Redis LoRa · Cache	7.4.11	internal :6379	Operational Up 12 days (healthy)	ChirpStack sessions/metrics.
lora-bridge (custom) LoRa · Bridge	app	internal (MQTT consumer)	Operational Up 12 days	Forwards LoRa uplinks → student TB device.
restic Ops · Backup	0.16	off-box SFTP (staging droplet)	Operational	Last nightly backup: 2026-09-15 03:17 UTC.
Mailpit Dev only	v1.31.0	local dev only	N/A	Not deployed in production.

Public endpoints verified by HTTP 200; internal services by container health (docker compose ps) on the production droplet (134.122.31.32). "Internal" services are reachable only on the Docker network. Companion docs: [opensource-systems-inventory.md](#) · [chertiot-systems-map.md](#) · [owner_uat/3/MAJOR-UAT-INCIDENT.md](#)
